

Majan Technical Supplies and Services

We are committed to quality in all areas and functions as an important component of sustainable success.

Management and employees of MTSS pledge to meet or exceed any contractual requirements towards their customers and partners, while ensuring that Quality, Safety and Environmental considerations are sustained.

This is based upon the following values:

- Maintaining long-term partnerships with our customers through open dialogue pertaining to services and improvement measures.
- The provision of excellent products and services combined with innovative technology offered at favorable rates.
- The protection of the company's know-how and expertise
- The commitment to provide all financial and physical resources to achieve these goals
- Continuously improving applicable quality standards and acting with honesty, fairness, and respect towards any individual.
- Quality is considered on the same level as all other business objectives
- This quality policy is communicated to all employees and the management of MTSS and all are encouraged to act quality conscious.
- This Policy will be reviewed biennially by the management.
- Maintaining close collaborations with our partners and suppliers to achieve our objectives and continually strive to develop the skills and performance of our employees.
